

AIMAN SHABBIR

SOFTWARE ENGINEER

aimilicious02@gmail.com | Abbottabad, Pakistan

SUMMARY

I am a motivated Software Engineering graduate with a strong academic background and a passion for building practical, user-friendly software solutions. I have experience in software documentation, UI/UX design, project planning, and application development through academic and final year project work. I am a quick learner, problem solver, and team player with a strong interest in web and mobile technologies.

- Urdu
- Hindko

EDUCATION

BS Software Engineering (Fall 2022 – Spring 2026)

COMSATS University Islamabad, Abbottabad Campus

CGPA: 3.20 / 4.00

FSc (Pre-Engineering) (May 2020 – June 2022)

Progressive School and College of Science, Abbottabad

84%

Matriculation (Science) (March 2018 – April 2020)

Progressive School and College of Science, Abbottabad

77%

EXPERIENCE

Industrial Internship – Software & Technology — CodeAlpha (September 2026 – Present)

- Currently participating in a one-month training and industrial internship to gain practical exposure through project-based learning
- Developing and strengthening skills in Front-End Development, Python Programming, C Programming, Java Programming, Backend Development, and App Development
- Exploring Machine Learning, Artificial Intelligence, and Human Resource Management through structured training and practical tasks
- Applying learned concepts to projects and building a broader understanding of real-world software development and technology practices

Freelancer — M Speech Recording Project (October 2025 – Present)

- Record speech and voice data for different projects according to provided instructions and requirements
- Review recorded data to ensure accuracy, clarity, and overall quality
- Maintain consistency and attention to detail while reviewing and validating recorded data according to project guidelines
- Follow project-specific instructions carefully and ensure that all assigned recordings meet the required quality standards

Front End Development – HTML — Great Learning – Online Courses (February 2024)

- Completed an online course covering HTML and front-end development fundamentals, including webpage structure and basic web development concepts

Final Year Project – School/College Pick and Drop Management System — COMSATS University Islamabad, Abbottabad Campus (Fall 2025 – Spring 2026)

- Developed a mobile-based transportation management system connecting parents with verified drivers
- Implemented features including parent and driver interfaces, route management, child pickup/drop-off tracking, real-time GPS tracking, notifications, feedback, and administrative management
- Contributed to UI/UX design, software documentation, project planning, and implementation using Flutter and Firebase, with web-based admin panels
